ELSEVIER

Hydrometallurgy 43 (1996) 395–396

hydrometallurgy

Contents Volume 43, 1996

The solvent extraction system Au (III)– HCl–Cyanex 471X
S. Martínez, P. Navarro, A.M. Sastre and F.J. Alguacil 1
The chemistry of CaO and $Ca(OH)_2$ relating to the Bayer process
B.I. Whittington 13
Solvent extraction of gold(III) from hydrochloric acid media by nonionic surfactants
S. Akita, L. Yang and H. Takeuchi 37
Selective dissolution of the cobalt binder from scraps of cemented tungsten carbide in acids containing additives
J.-C. Lin, J.-Y. Lin and S.-P. Jou 47
Transport properties of a commercial cation-exchange membrane in contact with divalent cations or proton–divalent cation solutions during electrodialysis
M. Taky, G. Pourcelly and A. Elmidaoui 63
Influence of pH on the dissolution kinetics of iron in sulphuric acid solutions
M. Vuković 79
Neural net based knowledge extraction from the historical data of an industrial leaching process
J.A.M. Rademan, D.W. Moolman, L. Lorenzen, J.S.J. van Deventer and C. Aldrich 95
Pressure reduction of nickel by hydrogen from hydroxide slurries
T. Saarinen, S. Fugleberg and L.-E. Lindfors 117
A study of a nickel hydroxide sulphate precipitate obtained during hydrogen reduction of nickel hydroxide slurries
T. Saarinen, L.-E. Lindfors and S. Fugleberg 129
Flotation of molybdate oxyanions in dilute solutions. Part 1. Selective separation from arsenate
Y.-C. Zhao, A.I. Zouboulis and K.A. Matis 143
Flotation of molybdate oxyanions from dilute solutions Part II. Selective separation from phosphates, arsenates and silicates
Y.-C. Zhao, A.I. Zouboulis and K.A. Matis 155
Extraction of Te(IV) by liquid surfactant membrane
R. Chakraborty and S. Datta 169
A mass transfer model for the hydrometallurgical extraction of Te(IV) by tri-n-butyl phosphate
M. Bandyopadhyay, S. Datta and S.K. Sanyal 175
A fundamental study of cobalt cementation by zinc dust in the presence of copper and antimony additives
V. van der Pas and D.B. Dreisinger 187
Interfacial properties determinations in liquid sulfur, aqueous zinc sulfate and zinc sulfide systems
G. Owusu and D.B. Dreisinger 207
Dissolution of hematite in acidic oxalate solutions: the effect of ferrous ions addition
D. Panias, M. Taxiarchou, I. Douni, I. Paspaliaris and A. Kontopoulos 219
In situ immobilization of heavy metals associated with uranium leach mines by bacterial sulfate reduction
J.L. Uhrie, J.I. Drever, P.J.S. Colberg and C.C. Nesbitt 231
Modelling of rare earth solvent extraction with artificial neural nets
A.E. Giles, C. Aldrich and J.S.J. van Deventer 241

The effect of manganous ion on carbohydrate use during heterotrophic bacterial leaching of manganese dioxide tailings
Y.P. Moy and J.C. Madgwick 257
Electrolytic recovery of antimony from natural stibnite ore
L.H. Madkour and I.A. Salem 265
Modelling of extraction equilibrium for zinc(II) extraction by a bibenzimidazole type reagent (ACORGA ZNX 50) from chloride solutions
G. Cote and A. Jakubiak 277
Electrochemical behaviour of zirconium electrodes in acidic medium and their applications to electrowinning of copper from dilute solutions
M. Chatelut, E. Gobert and O. Vittori 287
Extraction of iron(III) at macro-level concentrations using TBP, MIBK and their mixtures
B.R. Reddy and P.V.R. Bhaskara Sarma 299
Leaching of a low grade Egyptian chromite ore
A.M. Amer and I.A. Ibrahim 307
Mechanism of the dissolution of Turkish trona
G. Nasün-Saygılı and H. Okutan 317
Electrochemistry of chalcopyrite
C. Gómez, M. Figueroa, J. Muñoz, M.L. Blázquez and A. Ballester 331
Influence of metallic impurities on zinc electrowinning from sulphate electrolyte
L. Mureşan, G. Maurin, L. Oniciu and D. Gaga 345
Study of complex formation of vanadium(V) with sulphate ions using a solvent extraction method
M. Rakib and G. Durand 355
Thiourea leaching of silver from mechanically activated tetrahedrite
P. Baláž, J. Ficeriová, V. Šepelák and R. Kammel 367
The effect of certain surfactants on the cementation of copper by suspended zinc particles
M. Karavasteva 379
Leachable U and Au in an Indian schistose quartzite
R.N. Sankaran, R.S. Yadava, D.B. Sen, S.C. Kulshrestha, K.B. Mohanty and J. Singh 387
